

# SR&ED Manufacturing

SR&ED (Scientific Research & Experimental Development) is a government program that rewards companies that perform R&D in Canada. The program makes Canada a more economically competitive and technologically advanced nation and it has been in existence since the 80's. The Canadian incentive program is one of the most generous R&D programs in the world. **This is not a grant – if you qualify, you are entitled to this money under the Income Tax Act.**

**Many manufacturers qualify for this program.**

If you answer yes to any of the following questions, you could be sitting on an untapped refund.

- Have you encountered technological obstacles or uncertainties in the course of your work?
- Have you designed or built any prototypes or custom machinery?
- Have you designed or developed any technology that is state-of-the-art?
- Have you encountered challenges when improving products or technical processes?
- Have you developed any products that were patented?
- Have you solved technological problems by going beyond available practices, methods or routine engineering?

**There are only three criteria for eligibility plus evidence:**

- Scientific uncertainty or technological obstacle
- Scientific or technological advancement
- Systematic investigation
  - *plus* Technical content

**Proudly Canadian  
Owned & Operated**

**You could qualify for a refund for your SR&ED projects.  
How do you get approved? ASK US!**
